

# Green Spaces in Philadelphia's Commercial Corridors

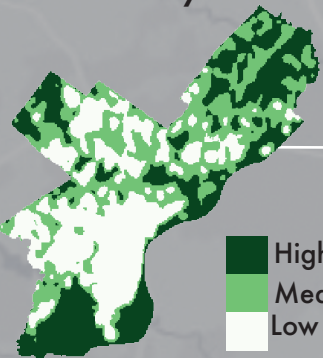

Use case: The city's Department of Commerce is looking for sites in commercial corridors that can most benefit from fund allocation to create green and recreational spaces.

## Commercial Corridors

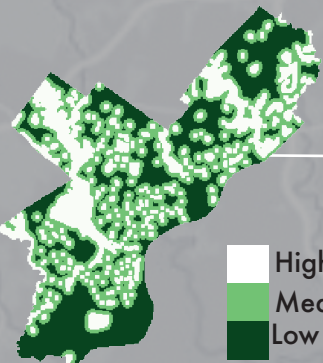

Transparency: 0%

## Tree Density

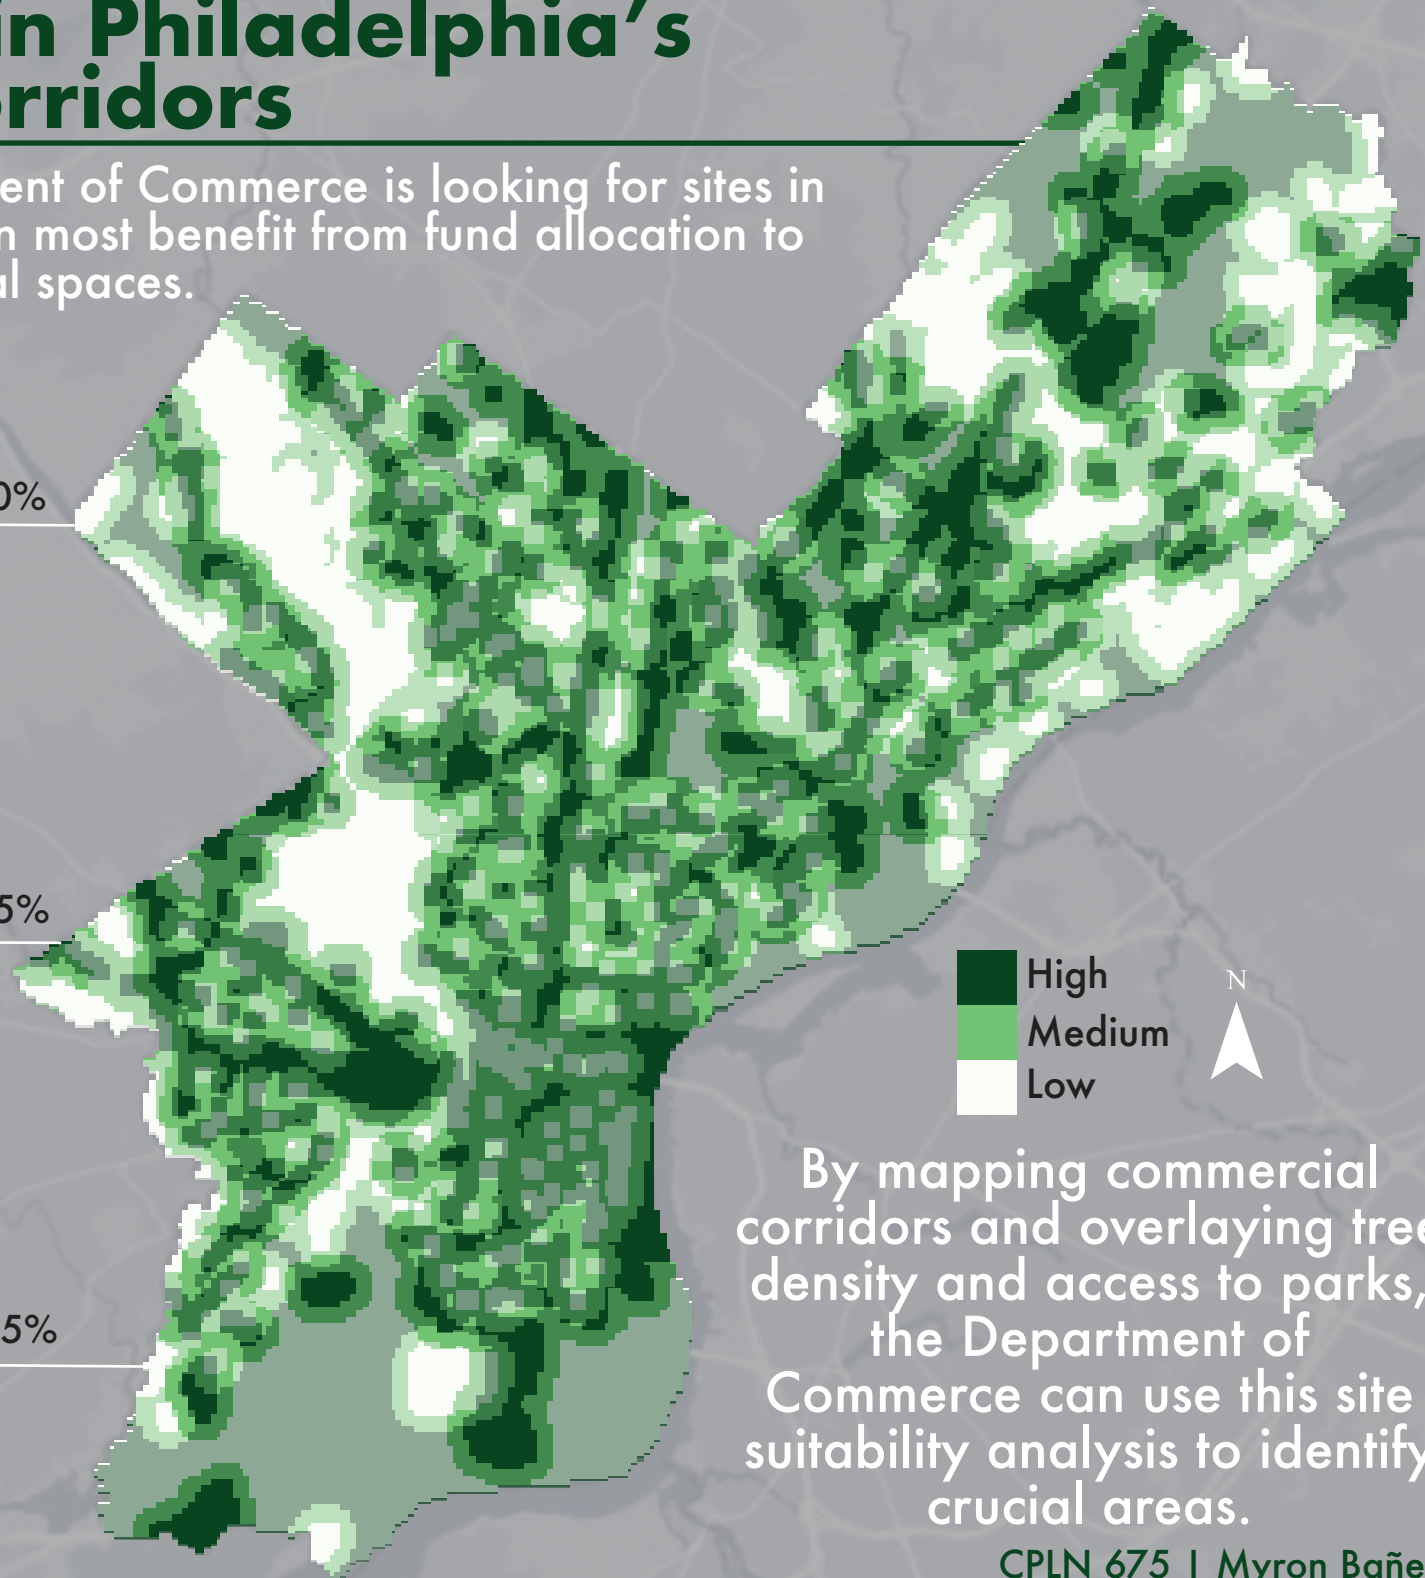

Transparency: 45%

## Access to Parks

Transparency: 45%

By mapping commercial corridors and overlaying tree density and access to parks, the Department of Commerce can use this site suitability analysis to identify crucial areas.
